OUR VISION

Empowering construction excellence through cutting-edge formwork solutions

ABOUT US

Eversure formwork accessories, a brand where tradition meets innovation in the world of construction solutions. Rooted in a family legacy of manufacturing construction products since 1974, we have embarked on a journey to redefine excellence in the industry through our quality assured formwork accessories

WHY US?

Precision-Engineered Products

Unlock unparalleled precision and efficiency with our meticulously engineered aluminum formwork accessories, custom-designed to elevate your construction processes

Reliability and Durability On-Site

Your safety is our top priority. Our accessories are designed to meet stringent industry and global standards, guaranteeing longevity, reliability and safety on-site

A Heritage of Excellence

With over four decades of family legacy serving industry pioneers, our commitment to excellence is ingrained in every product we offer

Cost-Effective Solutions

Experience efficiency without compromising on quality with our cost-effective and competitive solutions

Trusted Partners

As your construction solutions partner, be assured that we are always here for you, ensuring seamless support at every stage of your project

OUR CLIENTS

EVERSURE STUB PINS

Eversure Stub Pins are crafted meticulously to adhere to international quality standards, guaranteeing reliability and durability on site. Our pins are ideal for securely joining two wall panels or joints

Specifications

Pin type	Solid or Hollow
Steel	Cold rolled
Length	45-59 mm
Weight	Hollow 50g; Solid 60g
Diameter	14 to 16 mm
Finish	Galvanized gold or silver

EVERSURE WEDGES

Eversure Wedges are engineered from premium-grade materials to endure multiple repetitions and ensure secure interlocking of wall form plates, providing stability throughout the formwork assembly process.

Specifications

Wedge size	70mm, 75mm & 80mm
Steel	Cold rolled
Thickness	2.8-3mm
Weight	25-35g
Edges	R3 finish
Finish	Unplated or Galvanized gold or silver

EVERSURE WALLTIE

Eversure Wall Ties are tailored to the exact specifications of your projects. Crafted from high-quality steel, our Wall Ties guarantee optimal alignment and stability between formwork panels during concrete pouring. Their versatility allows for easy integration into various formwork systems, facilitating a seamless building process.

Specifications

Steel	E250 or E350 grade
Hole Diameter	3 holes measuring 16 to 18 mm in diameter
Thickness	3mm
Width	33mm, 38mm
Finish	Unplated or Galvanized gold or silver
Customization	Available as per drawing or specification
